

Data Energy – Coronavirus Update

Dear Clients, Residents and Suppliers,

We are pleased to advise you that we are fully prepared for the lockdown coming into effect from midnight tonight.

Moves have been taken to arrange for employees to work from home where possible however the office will remain manned and you should not experience any change in your level of service from us.

All of our Health & Safety requirements have been carefully planned and rehearsed and we feel well placed to keep things going in the “new normal”.

Our mobile technical engineers are following government, NHS and Public Health England guidelines. This includes taking additional precautions such as wearing masks, hand washing before, during and after site visits and maintaining a safe distance at all times.

Our normal working hours have not been affected.

We extend our best wishes to you and your families during these uncertain times.

Kind regards,

The Data Energy Team
